# FULL FIRE SAFETY COURSE

**Participants:** Up to 10

**Contents:** The full fire safety course is a 3-3½ hour course including a short end of course assessment. Using a range of delivery methods including Fire Protection Association video material, it covers the following areas:

*Classroom based* (approximately 1 ¾ hours)

- (a) The nature of Fire
- (b) Fire hazards and risk
- (c) Fire Prevention at work
- (d) Local Fire procedures and the role of fire wardens at the warden's specific site including looking at human behaviour in the event of evacuation (It is helpful if the customer supplies a copy of their fire procedures prior to the course)
- (e) How fire develops and spreads
- (f) Assessment on size of fire which staff can handle with equipment provided
- (g) Fire phenomenon such as backdraughts

## SHORT BREAK

*Practical fire extinguishing* (up to 1 hour)

- Practical fire-fighting safety rules
- Using the PASS formula for safe use of extinguishers
- Practical use of range of extinguisher types on our propane fire simulator – all course attendees will use at least one extinguisher

*Conclusion* (15 minutes)

- Questions from participants
- End of course assessment

The course comes with course notes and certification on successful completion of the course.

Our range of training courses and some general information is detailed at <http://www.nwmanagementsolutions.co.uk/training.html>

## Venue/Site Requirements:

- Suitable venue for classroom session – tables, chairs etc
- 19kg propane cylinder with internal thread connector (customer supplied for our fire simulator)
- Area equivalent to five car park spaces.
- Not near combustible/flammable sources, air intakes etc.
- Hard standing, ideally not visible from a roadway.
- On your land, not easily accessible by the public.
- Passes our on-site risk assessment.
