

# FIRE WARDEN COURSE

**Participants:** Up to 10

**Venue Requirement:** A quiet room large enough for the number of participants with a blank wall for projection purposes

**Contents:** The fire warden course is a 2-2¼ hour course including a short end of course assessment. Using a range of delivery methods including Fire Protection Association video material, it covers the following areas:

- (a) The nature of Fire
- (b) Fire hazards and risk
- (c) Fire Prevention at work
- (d) Local Fire procedures and the role of fire wardens at the warden's specific site including looking at human behaviour in the event of evacuation (It is helpful if the customer supplies a copy of their fire procedures prior to the course)
- (e) How to select and use a portable fire extinguisher safely
- (f) Practical fire extinguisher use (optional at additional cost)

The course comes with course notes and certification on successful completion of the course following the assessment.

Our range of training courses and some general information is detailed at <http://www.nwmanagementsolutions.co.uk/training.html>
